

**2023-FEB-13 Update:** Microsoft Edge released its Chromium engine browser version 110.0.1587.41 over the weekend, which has also been affected in the same manner as Chrome was affected last week.

## Problem Summary

A problem occurred following the new Google Chrome Browser update level 110.0.5481.78. Users will experience an X-System when connecting to a Virtel session. Please download and apply the latest update level for your current Virtel version. User will have to refresh their browser cache after the change has been applied to Virtel. (Shift+Ctrl+Del).

## Users affected

All Chrome users of Virtel Web Access with en-US Local

Administrators, please use MS Edge or Firefox to apply this maintenance using the Drag & Drop as the Virtel Admin Port is also affected by the Google change.

### Virtel version 4.60

#### **Virtel - W2H-DIR/DOC-DIR Update Levels**
