

Virtel v4.64 Update

- Virtel V4.64 is currently shipping and incorporates our highest level of Virtel security capabilities
- Customers can upgrade directly to V4.64 directly from whatever level currently running – NO intermediate upgrade path is necessary !
- For details about all the enhancements in V4.64, please [Read The Press Release](#)

Tips for Virtel Administrators

- Virtel can now act like a 'Telnet client', allowing the Virtel Administrator to define Telnet TN3270 access to multiple mainframes and environments – z/OS, z/VM, IBM Series i, and OSA ICC MVS Consoles – through a single Virtel STC instance
- Virtel network access to IBM Series i allows one to replace TN5250 terminal emulators !

- The Virtel Administrator can now define a URL in the AppMenu footer, which could be used for a Password Reset page or other required externalized function.

Virtel Screen Redesigner Update

Say Goodbye to Green Screens – Without Writing a Line of Code!

Virtel Screen Redesigner v1.08.03, the latest version of our web-enablement suite designed to modernize 3270 mainframe applications with zero code changes, is GA and available for trialing.

Still relying on 3270 mainframe applications? It's time to reimagine the user experience—without the hassle of rewriting or redeveloping your apps.

For insights into the organizational costs and benefits associated with UI modernization, check out the *Enterprise Executive* article: [**'The Pain and Gain of User Interface Transformation'**](#)

- Intuitive drag-and-drop editor
- Built-in widgets (menus, dropdowns, buttons...)
- Runs directly on the mainframe – no external servers
- Let users choose: classic or modern interface
- No disruption, no risk to core, mission-critical systems

Why choose complexity when you can go simple *and* powerful?

VIRTEL continues to offer free, no obligation trials of the complete Virtel Web Suite of mainframe access, UI modernization, and application integration technologies, complete with expert technical support during the trial period. Please contact SDS for details.
